**NOTE: THIS INSTALLATION
MANUAL CAN BE REFERRED FOR
FLUSH ACTUATOR PLATES.**

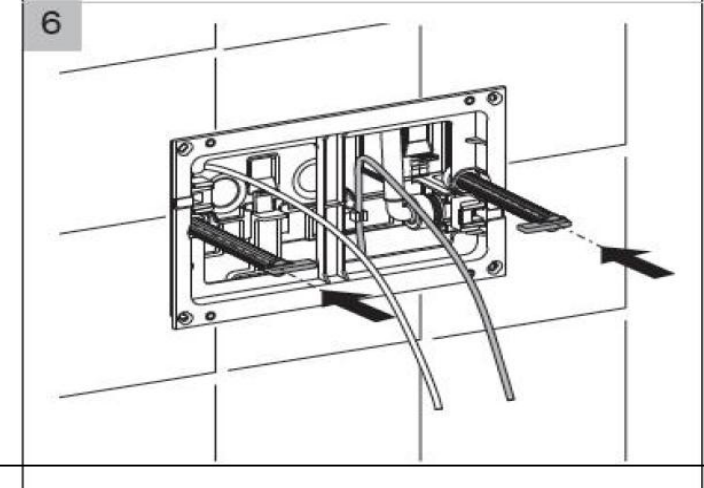

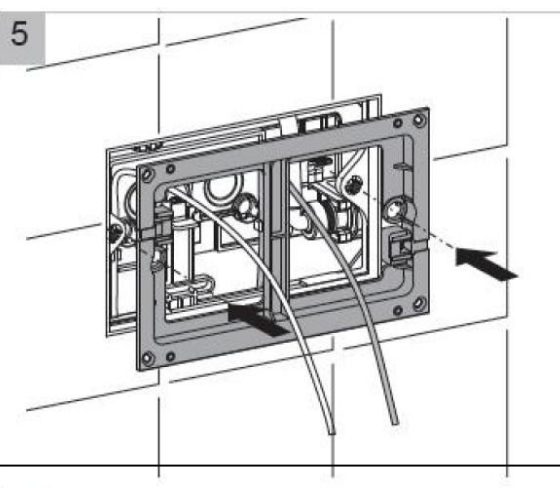

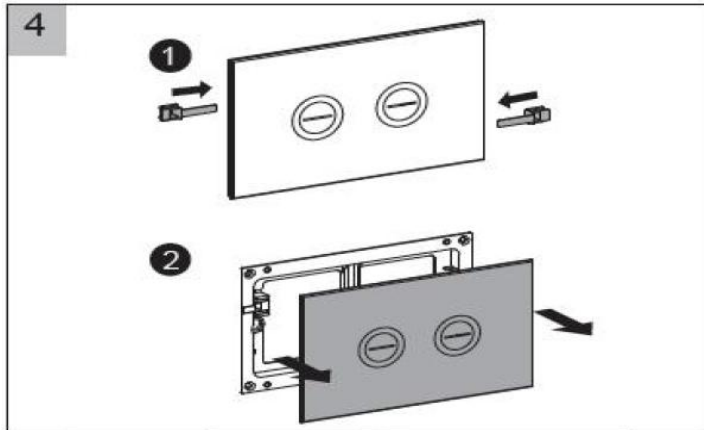

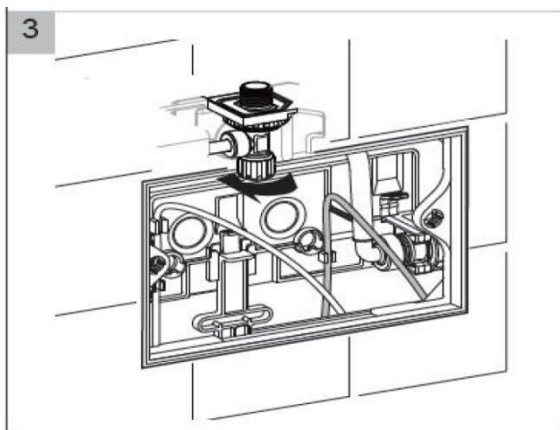

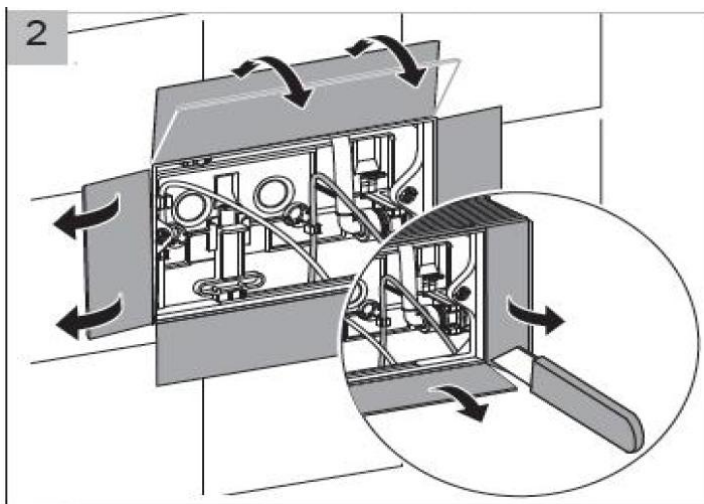

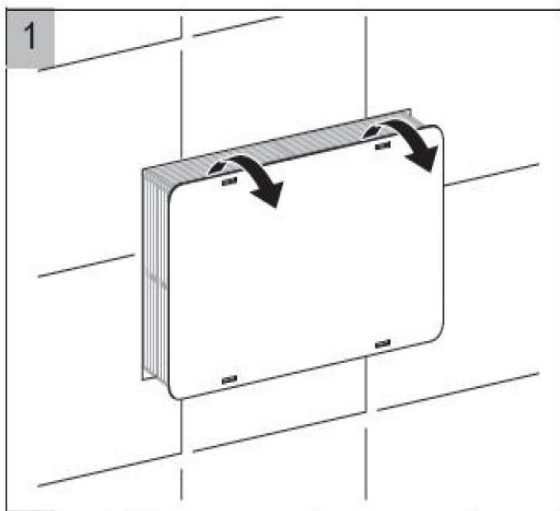

CELICA PNEUMATIC

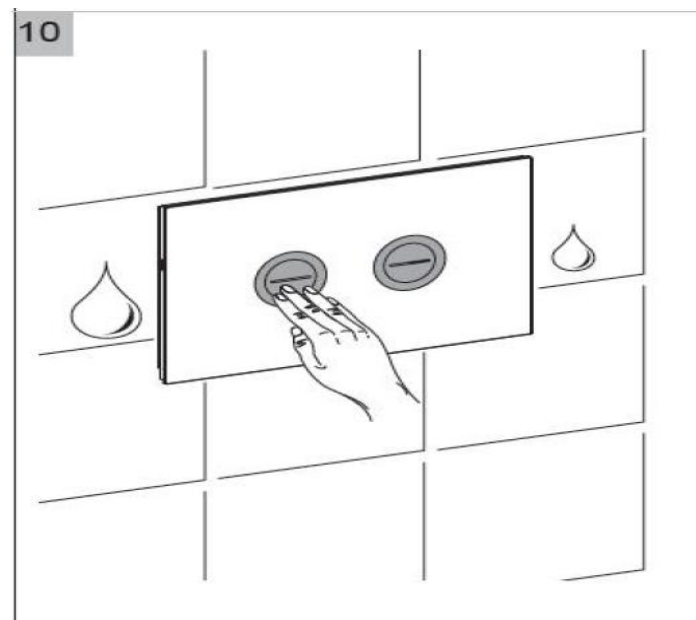

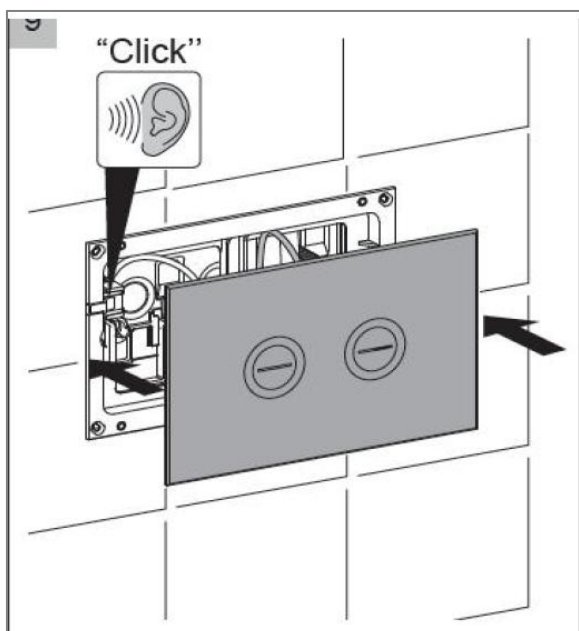

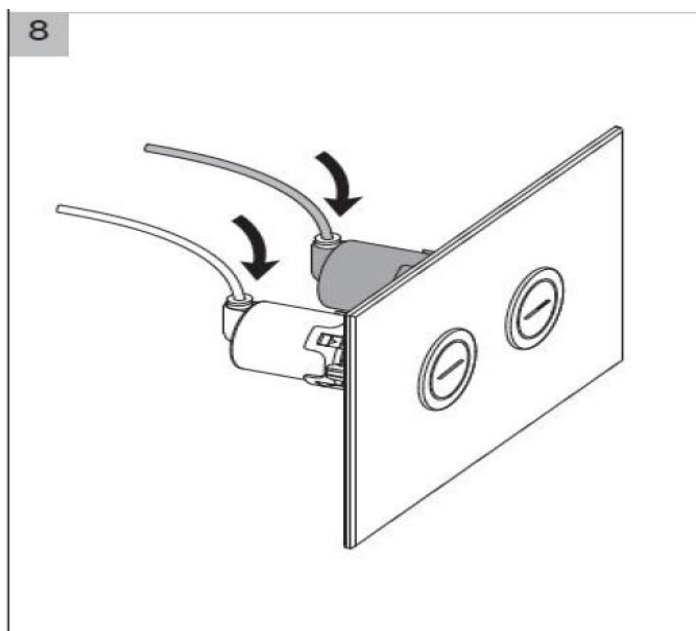

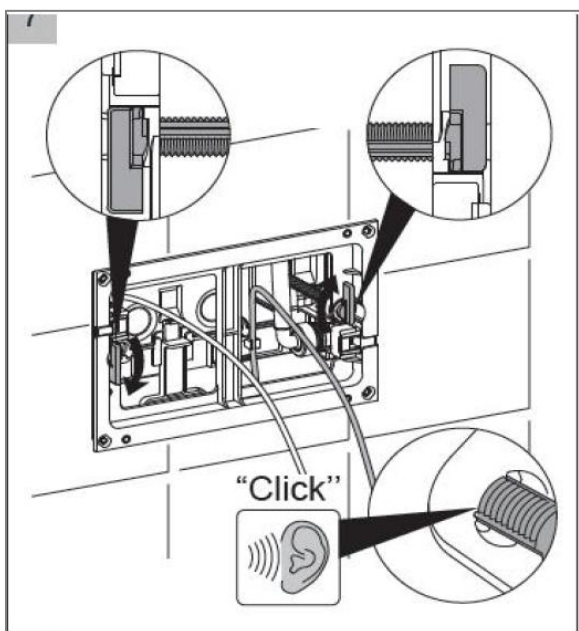

Requirements:-

- ◆ Allen key, cutter.
- ◆ Screw driver & flush actuator plate.
- ◆ Hardware & other fasteners ,(included in Box)

Note:- *This installation manual can be referred for following plate types:-*

INSTALLATION Steps:-

Safety Tips:-

- 1. Turn Off Water Supply** – Ensure the water supply to the cistern is switched off before starting installation.
- 2. Check Power (if sensor/electronic type)** – If it has any electrical components, disconnect the power supply before working.
- 3. Use Proper Tools** – Always use insulated screwdrivers, pliers, and correct size tools to avoid damage or injury.
- 4. Avoid Excessive Force** – Do not over-tighten screws or fittings; it may damage the plastic housing or tiles.

- 5. Handle Sharp Edges Carefully** – Be cautious of metal or tile edges around the mounting area to prevent cuts.
- 6. Follow Manufacturer's Instructions** – Install parts in the correct order as shown in the manual.
- 7. Check Alignment** – Ensure the frame and flush plate are level before fixing to avoid leaks or malfunction.
- 8. Secure Cables & Pipes** – Keep cables and pipes properly aligned to prevent pinching, bending, or leakage.
- 9. Test Before Use** – After installation, check for water leaks and smooth operation of flush buttons.
- 10. Personal Safety** – Wear gloves and safety glasses while cutting, drilling, or handling tools.
